WHEAT

Rye Crop Small

Estimated rye acreages for 1934 in 18 countries amount to 39,859,000 acres, a reduction of only 1.5 per cent from the comparable 1933 total and 6 per cent under the 1929-1933 average. Production estimates for 24 countries, totalling 151,194,000 bushels, however, indicate a drop of 26 per cent from the 1933 harvest of 1,001,940,000 bushels and a decline of 20 per cent from the 1929-1933 average. Low yields, rather than reduced acreage, generally account for the short crop in prospect, due largely to drought conditions prevailing in the principal producing countries. Though there are few specific data available yet on the rye crop in Russia, which is generally about equal to the total for the rest of the world, it is significant to note that there was some decrease in seedings; that above-normal winter kill has been reported in many sections, and that the spring drought affected several regions where rye is an important crop. It would not seem, however, that the drought had damaged the rye crop as much as wheat and some other crops — Foreign Crops and Markets.

Canada's Best Customer

The British Isles is now Canada's best customer, a distinction held for several years by the United States. In 1932, domestic exports to the British Isles totalled \$178,171,686 in value or 415,540,901 more than to the United States. In 1931, similar exports to the United States amounted to \$256,342,045 or \$85,497,223 more than to Britain. Canadian exports from Britain in 1931 were valued at \$171,534,822 so that the 1932 value shows an increase of \$6,636,868. From June to December 31, 1932, reports from Canada to the British market had a value of \$116,487,568, an increase of \$13,553,759 over the corresponding six months of 1931.

What Canadians Eat

There is nothing wrong with Canadian appetites, according to a bulletin issued by the Dominion Bureau of Statistics giving the estimated consumption of meats, poultry, butter, cheese and eggs in Canada. Pigeons used on a per capita basis every person in Canada during 1932 ate 138.38 pounds of meat, 18.68 pounds of poultry, 20.4 pounds of butter, 2.36 pounds of cheese, and 21.45 dozen eggs. Pork, although generally more expensive, was the most popular meat and the consumption per capita was 74.65 pounds. The per capita consumption of beef was 54.09 lb. and of mutton and lamb 6.32 pounds. The estimated consumption of meats in Canada during the year was 1,463,219,540 pounds; of poultry, 114,144,900 pounds; butter, 326,871,718 pounds; cheese, 36,255, 600 pounds; and 229,146,617 dozen eggs were consumed. Cooperation and Market News.

French Farmers Get Huge Subsidy

A subsidy of 500,000,000 francs (1 Canadian funds, approximately \$22,000,000) has been voted by the French chamber of deputies to help the French farmer and keep the price of wheat at 130 francs per quintal or approximately \$2.60 a bushel in Canadian money. This brings the total of subsidies by the French parliament to the farming community to \$45,000,000 for the present year. In addition the public is paying more than double the world price for their bread. It is estimated that the French nation pays about \$500,000,000 a year, both directly and indirectly to aid the farmers of that country. In spite of the upsurge in Canada over the Dominion government guaranteeing the McFarland market stabilization operations it is obvious that this Dominion does not go very far in housing its farmers as compared with such countries as France, and the example of France is fully met pretty well throughout Europe.

Argentina's Wheat Position

On July 2, Argentina had disposed of approximately 110 million bushels of wheat during the crop year and had about 75 million bushels from the 1933 crop still available for sale, according to the Buenos Aires correspondent of the Canadian Bureau of Statistics. Supplies for the year totalled 281,872,000 bushels, he says. The correspondent says that seedling was at that date (July 2) fairly well advanced. While weather had been dry in some sections and too wet in others, on the whole conditions were fairly good. Seedling is generally completed about the middle of July. This year about 18 million acres will be sown, which is 564,531 acres less than last year. More seed will be grown, of an improved type, and

THE BASSANO MAIL.

THURSDAY, AUGUST 2, 1934.

HEALTH

WILL
There is no chance, no destiny, no fate,
Can dreamt or hinder or control.
The firm resolve of a determined soul,
Gifts count for nothing; will alone is great;
All things give way before it, soon or late.

What obstacle can stay the mighty force
Of the sea-seeking river in its course?
Or cause the ascending orb of day to wait?
Each well-born soul must win what it deserves.
Let the fast grate of luck, The fortunate,
Be the whose earnest purpose never ceases,
Whom, slightest action or inaction serves.
The one great aim. Why even Death stands still,
And waits an hour sometimes for such a will.

UNEMPLOYMENT CONFERENCE

Alberta government will be represented by Hon. Geo. Howland, minister of health and telephone, at the unemployment conference at Ottawa at the end of July. Accompanying him will be J. C. Thompson, provincial auditor.

NUMBER OF UNEMPLOYED

There were 108,756 unemployed persons in Alberta on July 14, then one week previous, according to figures released by the provincial employment service.

UNIQUE TELEPHONE CALL

Marking another striking innovation in telephonic communication, the Alberta Government Telephone paid through a telephone call this week from Jasper to the Canadian Pacific Hotel, Niagara of British Columbia, crossing the Atlantic from Quebec to Liverpool.

This was the first time such a call has been put in.

the way tend to increase the yield.

Eastern Spring Wheat Cuts

The average acreage of spring wheat in the five provinces of Eastern Canada from 1923 to 1930 has been 221,260 or 139 per cent of the total average of principal crops. The total average of spring wheat for all Canada has been 22,306,250 acres. The cost of producing spring wheat on four eastern Dominion Experimental farms during the eight years 1925-30 has been \$1.02. The average yield during this period has been 24 bushels per acre. The net cost of spring wheat has averaged \$1.32 per bushel over the above period, giving an average profit of \$4.85 per acre over the cost of production. Cost of Producing Farm Crops in Eastern Canada. Bulletin, Dominion Department of Agriculture, China Buying Office, United States' Flour.

The first purchase of flour on the basis of 44 cents a bushel to China by the United States for buying that commodity was recently announced from Portland, Oregon, June 26, when it will be moved to China. The flour is being milled by flour mills throughout Oregon and Washington and will be shipped on United States' steamers.

Some time ago negotiations were conducted between Canada and China for the purchase of Canadian wheat but the proposal fell through owing to the terms offered not being satisfactory to the Canadian government. Premier Bennett, in discussing the subject in the House of Commons, said the price offered by China for Canadian wheat was less than, to quote a bushel and one condition was a three-year credit to that country. This would have necessitated the financing of the transaction by the Dominion government. The usual satisfactory terms, together with the instability of the government in China, resulted in the abandonment of negotiations.

Can Europe Do Without

Canadian Wheat? Europe will not take Canadian wheat if she has to pay too high a premium for it, said J. C. McGillivray, Canadian freight commissioner to Holland, Switzerland and part of Germany. He has recently returned home on a vacation. He said that Europe could get along without Canadian wheat as it is used to improve the quality of their flour. When abundant supplies are available from Argentina and Australia at much lower prices the tendency is to disregard the Canadian product.

United States' Wheat

Estimates Again Reduced
An estimate issued by the United States Department of Agriculture (Bureau of Agricultural Economics) reduces by 85 million bushels the former estimate of 485 million to 400 million bushels.

TAKES OVER NEW DUTIES

After 50 years in dairying, 32 of which were spent in this province, Mr. C. P. Marker, dairy commissioner, resigned this week to be succeeded by J. Roy Sweeney, native of New Brunswick, and for some years chief federal grader at Winnipeg.

MAKES HOMESTEADERS

PRESEVERE THEM
Consideration is being given by the provincial government to enactment of regulations compelling all homesteaders to retain on their land a portion of the natural timber, according to Premier H. G. Reid. This work will be in line with the general reforestation policies adopted by the premier when he took over the then newly formed land, and since its inception in 1926.

It is pointed out first, of all, that it is to be expected that there will be an increase in the total number of deaths from causes such as cancer, which occur in the older age groups. As is generally known, the average expectancy of life has increased considerably, so that today, a larger percentage of the population are in the age groups attacked by cancer.

No one has questioned this fact, but many have said that after making due allowance for the increase of the population, there has been an actual increase in cancer. The New York figures do not support this view, and the conclusion is reached "that cancer is probably no more prevalent now, in any given age group than it was a generation ago."

We do not think this ends the matter, however, but we do believe that the note of comparative optimism should be heard. The cancer problem is serious enough that it does not require the slightest exaggeration to focus attention upon it. But it is equally desirable that we should not become unduly pessimistic.

These New York figures would indicate that, in so far as the population of that city is concerned, there is no new force or condition which has arisen in recent years, to cause an increase in cancer. There is nothing to indicate that the foods used or the methods of cooking employed by civilized people today are leading to an increase in cancer.

Whether or not cancer is on the increase in the population is of little interest to the person who develops the disease. To him, the one and only cause of untimely death is anything he does for me in the way of treatment. The answer to this question remains the same as it always was. The chance of cure depends very largely upon early recognition of the presence of the disease, followed by early diagnosis and proper treatment, but we do know that in no other way can the lives be preserved.

ORPHEUM THEATRE

FRIDAY ONLY THIS WEEK

"Aunt Sally"

(Three act) Comedy Contrivance, the incomparable comedian, in only a box office clerk can be, but he couldn't find them a seat. However they were knowing ones, and slipped round the side and man went to find an attendant who let them in.

THE SAFE TIRE BARGAIN!

You didn't realize, perhaps, that you could get genuine Goodyear Tires for so little?

It's a very pleasant surprise!

Why not know the pleasure of riding on four new, safe Goodyears? The saving on four is a very tiny sum.

Mounted for you, of course, without extra charge.

Our service is prompt, efficient and courteous.

GOOD YEAR
SPEEDWAY

A. P. Pierson

Bassano, Alberta

Phone 89

Now you can get Tetraethyl Lead in
FIRE-CHIEF
at no extra cost!

t tankful certainly sold us"

re-Chief, it's pretty
gain for more. Not
Fire-Chief Gasoline
th any of the other
the Dominion, but be-
e, too, ranks high.

Filling your tank with gasoline is certainly no more than you're paying for—but wiping your windshield, checking tires, water in radiator and battery—these are the little extras which make it both profitable and pleasant to trade regularly at the Texaco pump.

If you could put a gallon of gasoline on a scale and by looking at the gauge, learn all about its power, speed, mileage and anti-knock qualities—then you'd know in advance just what you were paying for. But since you can't do that, you can do the very next best thing

Take Texaco Fire-Chief Gasoline, for example—Fire-Chief is not only fast and powerful—but now Tetraethyl Lead, the anti-knock compound, has been added to it!

Tetraethyl helps to eliminate the harmful motor "knock" that steals power and speed, overheats engines and tends to cause unnecessary wear on wrist pin and crankshaft

bearings. With Tetraethyl in a gasoline, you get smoother performance, greater speed and economy.

We'd be tickled to death if you could put Fire-Chief on a scale and test it for power and smoothness. But since this is impossible—try a tankful in your car. Test Fire-Chief's new power, action and mileage with Tetraethyl added! Get your next gasoline at any Texaco Service Station.

IMPORTANT—Greater FIRE-CHIEF is not an old gasoline colored and renamed, but is an entirely new, improved and better gasoline.

Tautfest Family Holds Reunion

Mr. and Mrs. Fred Tautfest, pleo-
re citizens of Idaho county, cele-
brated their golden wedding anni-
versary at their home in Ferdinand,
Friday, surrounded by their thirteen
children, twenty grandchildren, and
two grandchildren-in-law. All of the
children born are living, and were
present.

Mr. Tautfest and Kathryn Fisher
were married at Marion, Kansas, July
20, 1884, and after the opening of the
Nepece Indian reservation, they came
to Idaho and homesteaded 160 acres
four miles west of Ferdinand. The
homestead is still in possession of
the family and is being farmed by
Edward Tautfest, a son.
Fourteen years ago Mr. and Mrs.
Tautfest retired from active farming
and moved to Ferdinand. On their
fiftieth marriage anniversary, the
venerable couple received felicita-
tions from their children and from
many friends and neighbors. Mr.
Tautfest is 74 years old and Mrs.
Tautfest is 69.

The observance included a picnic
at Cottonwood Butte. The honored
couple and their children and fami-
lies then returned to the home of
Mr. and Mrs. Tautfest for a social
time and entertainment for the chil-
dren. A four-tier cake was baked
for the occasion, bearing 50 candles,
one for each year of their married
life.

Their children attended their wed-
dings with impromptu talks and
then presented to Mr. and Mrs. Taut-
fest a handsome radio set.

Those present were:
Mr. and Mrs. Roy Eastman, Mr.
and Mrs. William Tautfest and Mr.
and Mrs. Nello Tautfest and fami-
lies, and Mr. and Mrs. Jean Norton
and all of Rosemary, Alberta, Mr.
and Mrs. Benjamin Tautfest and Mr.
and Mrs. Harry Broker and families, and
Mrs. Fred Tautfest, Jr. of Craigmont,
Idaho; Mr. and Mrs. Edward Taut-
fest and family, Ferdinand; and
Mrs. G. W. Tautfest and family, of
Homer's Ferry, Idaho; Mr. and Mrs.
L. W. Latta and daughter, Noyes,
Idaho; Mrs. Milton Bush and Miss
Kathryn Tautfest, Los Angeles, Cal.;
Miss W. B. McCaffrey, Jr. and two
daughters, St. Regis, Montana; and
Miss Margaret Tautfest, Ferdi-
nand; and Mr. Elmer Greiner, Cotton-
wood, a grandson-in-law.

COUNTRESS NEWS

COUNTRESS, Aug. 1.—Mr. and
Mrs. Stewart Main of Calgary, were
visitors of Mr. and Mrs. Geo. McIntosh
the last of the week.
Fred Robinson, of Kenwick
Wash., arrived Friday to look after
his interests here. Mr. and Mrs.
Robinson left County last fall and
went to Washington, where they
purchased a fruit farm.

Mr. E. Ferguson left last week by
motor for the north country, where
he intends looking around.

The ladies of the C. C. Club met at
the home of Mr. M. H. Gamble last
Wednesday afternoon, where they
enjoyed a pleasant time.

Mr. H. Gamble and E. Doren mot-
ored to Calgary on Thursday. They
were accompanied by Rhoda, a
Kathleen Kaur who returned to their
home at Indus after spending a few
days visiting at the Gamble home.

Mrs. B. D. Benjamin is visiting her
parents across the river.
Joan and Darrell Gamble spent
Sunday at the Haldi home.

Mrs. I. Rosenbaum and little
daughter Florence of Calgary, were
guests of Mrs. H. Cowan on Thurs-
day.
A number of Countresses took in
the show, "Eskimo" Saturday even-
ing at Bassano.

Mr. Honey and crew are doing
some road work in the district.

LOCAL NOTES

Miss Betty White, of the hospital
nursing staff, left Wednesday on her
summer vacation.

Mrs. Joe Culbertson and three chil-
dren are visiting with Mrs. J. H.
Stiles.

Mrs. H. S. Wight was visiting with
friends in Brooks this week.

Miss Marie Gronberg has been visit-
ing with Mrs. E. F. Maurer.

Mrs. J. G. Walker, of Blackie, is the
guest of her sister-in-law, Mrs.
R. H. Hatterbrook.

Sergeant and Mrs. Galloway and family
are leaving this week for Calgary,
where the sergeant has a new post.
They will reside in Crescent Heights.

Mr. and Mrs. Alf Hanson have
moved into the house recently vacat-
ed by Mr. and Mrs. F. Gayford. Mr.
Hanson is the new manager of the
City Bank.

Mr. and Mrs. D. MacLeod and
children returned last Sunday from
a two-week's vacation. Ed Snyder,
who was relieving Mr. MacLeod as
agent for Distributors Ltd., returned
to Calgary.

Mrs. Wm. McLaws and daughter
Nora are visiting this week with rela-
tives in Calgary.

Mr. and Mrs. L. D. Nesbitt and
daughter Donna, of Calgary, visited
last Sunday with friends in Bassano.

Young George Riles escaped in-
jury when a tire blew out on the car
he was driving home from Calgary
last Friday. The car, owned by Wm.
McLaws, went into the ditch and
turned over. Windows glass was
broken and fenders crumpled.

Word has just been received that
Richard and Mary Walsh, children
of Mrs. J. L. Wynn, passed their Ter-
minum Conservatory of Music exam-
inations. Their teacher, Miss Houe,
is pleased with the fine showing
made by these two pupils, who have
been taking piano lessons only one
year.

A daughter was born to Mr. and
Mrs. Julian Neilson, of Huesar, on
Monday, July 30, at the Bassano Hos-
pital.

Miss Helen Travis and her brother,
James "Bubba", are in Cal-
gary visiting their aunt, Mrs. J. C.
Tuffs.

L. T. H. Pearson, pastor of Brooks
and Bassano Anglican churches, re-
ceived word today of the death of
his uncle at Bashaw, Alta. Mr. Pear-
son is leaving at once for Bashaw
to attend the funeral. There will be
no service at the Anglican Church
next Sunday. The next service will
be held August 19.

Gordon Smith is visiting in Cal-
gary this week.
Miss Helen MacGregor is spending
a few days at the Hesketh home in
Arrowwood.

Miss Grace Reher is spending this
week visiting with Miss Dorothy
Hangan.

Mr. and Mrs. Flood and baby son
left Wednesday morning for Crest
on B. C., where they will spend a
couple of weeks with relatives.

Horace Brown, Patricia, George
Stiller, Jr. and Bob Donaldson plan
to compete in the provincial tennis
tournament to be held in Edmonton.
The local trio are leaving Sunday
morning in order to be on hand for
a little practice before play starts on
Monday, August 6.

The Distributors Limited team, of
Calgary, defeated a Basalt team in
both fixtures of a softball double-
header last Sunday. The visitors won
the first game 20-4, and the second
15-11. Both games were played on
the second diamond. The Distribu-
tors want Bassano to go to Calgary
for a return game.
